# git workflow - advanced
## merging from feature branch multiple times

**BRANCHES**

**main**

**develop**

**feature-a**

git checkout main
git pull
git checkout -b sprint-1
git push --set-upstream origin develop

Merge develop into main at the end of each sprint.
git checkout develop
git pull
git checkout main
git pull
git merge develop
git push

git add
git commit -m "what did you change"
git push

git checkout develop
git pull
git checkout -b feature-a
git push --set-upstream origin feature-a

git checkout develop
git pull
git checkout feature-a
git merge develop

git checkout develop
git pull
git merge feature-a

git checkout sprint-1
git pull
git merge feature-a

git add
git commit -m "what did you change"
git push

git add
git commit -m "what did you change"
git push
